

Twenty artists and surprises for Rocchetta Mattei

A fairy place where astonishment and charm can disappear for always. We speak about **Rocchetta Mattei** that invokes a safety solution with the exhibition “*Il Castello delle Meraviglie*”. It opens at 6.00 p.m. at *Alvar Aalto* church. It's a new initiative of an artistical group who likes Earl Cesare Mattei's eclectic architecture. The leader is *Luigi Ontani*. He lives in one of the dependance of the little castle and for years he has been doing all he could to save the building. Besides Ontani who participates with a portrait of Earl Mattei, there will be the paintings of:

*Bruno Benuzzi, Gian Marco Montesano, Izumi, Andrea Renzini, Maurizio Osti, Tino Stefanoni, Marco Lodola, Salvo, Giorgio Zucchini, Fabrizio Passarella, Luigi Mastrangelo, Ernesta Scudellari, **Alessandro Moreschini**, Ascanio Renda, Mataro da Vergato, Angelo Generali, Massimo Liviadotti, Felice Levini.*

The exhibition is edited by Loretta Cristofori and Valerio Dehò.

During summer the exhibition will continue in Grizzana and Vergato and in september it will be in Bologna at **Galleria Loretta Cristofori**. A lot of painters will give their painting and they will be the first nucleus of the fair museum, one of the future destinations of Rocchetta. This one is a private property and architectural estate protected by State. Some years ago the building had the roof restored but it still needs important interventions. At the beginning the Superintendence of Architectural and environment goods decided to do something but today nothing has changed and the degradation continues*.
